

Tissue Engineering Society of Slovenia

announces

4th CARTILAGE WEEKEND

an international symposium bringing together
clinicians and basic scientists

Presenting

Advances in Regenerative Medicine

May 9-10, 2008

Portorož, Slovenia, EU

Topics

- Cartilage repair
- Cell based therapies of musculoskeletal tissues
- Tissue engineering in other medical fields
- Cell cultivation and biomaterials
- Stem cell research and applications
- Regulatory aspects of tissue engineering
